PROFESSIONAL SUMMARY

Motivated B.Tech Computer Science Engineering (AI/ML) student with strong interests in Artificial Intelligence, Backend Development, Computer Vision, and Data Analytics. Passionate about solving real-world problems through software development and eager to contribute to innovative research and software engineering projects while continuously improving technical skills.

EDUCATION

Jawaharlal Nehru Government Engineering College	2024 – Present
Bachelor of Technology, Computer Science Engineering (AI/ML)	
Class XII (CBSE)	82%
Class X (CBSE)	82%

TECHNICAL SKILLS

Programming	Python, Java (Basic), SQL, C++ (Basic)
AI / Machine Learning	OpenCV, TensorFlow/Keras (Basic), Computer Vision, Image Processing
Backend Development	Spring Boot (Basic), Apache Kafka (Basic), REST APIs
Databases	MySQL, H2 Database
Data Analytics	Pandas, Power BI (Basic)
Tools	Git, GitHub, Maven, IntelliJ IDEA, VS Code
Core Subjects	Object-Oriented Programming, DBMS, Data Structures & Algorithms, Operating Systems, Computer Networks

PROJECTS

Student Performance Analysis using Python & MySQL

- Designed a relational database to manage academic and lifestyle information of students.
- Performed SQL joins, aggregations, filtering, and analytical queries; integrated MySQL with Python using mysql-connector.
- Used Pandas to analyze performance trends and generate insights; managed the project using Git and GitHub.

Real-Time Emotion Detection using AI

- Developed a facial emotion detection system using Python, OpenCV, TensorFlow, and Keras with real-time recognition through webcam input.
- Applied image preprocessing techniques to improve prediction quality; trained and evaluated a CNN model for emotion classification.
- Strengthened practical understanding of Computer Vision and Deep Learning.

Banking Transaction Processing System

JPMorgan Chase Job Simulation

- Built backend components using Java and Spring Boot; implemented Apache Kafka consumer services for transaction processing.
- Integrated H2 Database and REST APIs; used Maven for dependency management.
- Debugged and tested backend application components.

CERTIFICATIONS

- JPMorgan Chase Software Engineering Job Simulation (Forage)
- AI in Digital Marketing

LANGUAGES

English, Hindi

POSITIONS OF RESPONSIBILITY

Treasurer, College Committee	Semesters 1–3
- Managed financial records and budgeting for student activities; coordinated with faculty members and student teams during events. - Assisted in organizing multiple college programs.
